

HaBo

- The individual shoulderpad for all violin and viola -

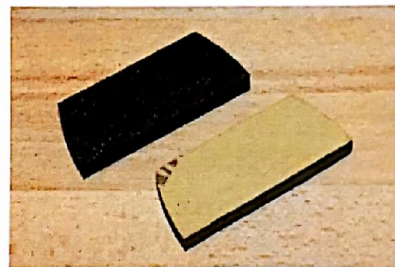

This kit contains:

1x Pad ca. 9mm high

1x Pad ca. 17mm high

1x non-adhesive strip
1x adhesive strip

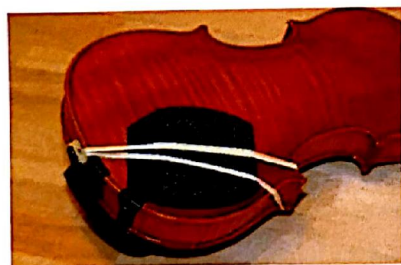

Operating instruction:

The rubber band is fastened over the end pin, looped through itself to fasten. Then it is stretched across the back of the lower bout and fastened over the back and front corner of the lower bout (bass side).

Firstly fit the thin pad, it will rest securely on the shoulder. It is also designed to be non-slip.

Then try the thicker pad. Which pad feels better?

With the enclosed strips you can add layers in addition to adjust and customize.

You can decide whether to use the adhesive strip or non-adhesive strip.
